

Creating a Personal Record on the MyScouting Website

If you are new to Scouting and/or have not created a person record via the MyScouting website, access the site at <http://www.scouting.org> and click **Start Here**:

You are now on the sign-in screen...

...and can either **create an account** or **watch the account creation demo**.

Follow the prompts through the account set-up process. **IMPORTANT:** be sure note the user name you select and the name you use when completing the Profile Information – important if your name is “Christopher” but you register as “Chris,” for example. It is crucial you verify the e-mail address you provide is correct, as this is where log-in and password reset information will be sent.
